

Adults on the Autism Spectrum: Share Your Experiences with Identity

Who we are: Research team out of George Washington University, with four years of experience of research in the community, looking to learn more about the experiences of adults on the Autism Spectrum with identity, inclusion, acceptance, employment, and other parts of life.

Who you are: A person 18 years old or older, who resides in the U.S. and is on the Autism Spectrum. LGBTQ+ individuals and those with other marginalized identities encouraged to participate and share your voice and experiences.
